

From Special Forces teams to state crime lab analysts, GFJC brings high quality training to professionals on the front lines of public safety with our online courses. These courses were developed with subject matter experts to provide first-class instruction at your own pace and from your own space. Students receive a certificate of completion after passing a course assessment. Contact us at [forensics@fiu.edu](mailto:forensics@fiu.edu) to learn how GFJC can build the training your organization needs.

**Introduction to Crime Scene Investigation** was developed for new crime scene investigators and law enforcement first responders, with step-by-step introduction to scene processing and evidence collection. Topics covered include: physical evidence, crime scene documentation, biological material, trace evidence, latent prints, footwear/tire tracks, tools and toolmarks, and firearms.  
**Cost: \$129**

**Intermediate Crime Scene Investigation** goes beyond basic skills to cover situations investigators don't see every day and provides expanded skills and knowledge for investigators, students interested in pursuing forensic science, corrections agencies, death investigators, and tribal agencies. New techniques include casting footprints under water, lifting fingerprints from skin, bloodstain documentation and includes do-it-yourself experiment ideas to help students or agency teams practice new skills. **Cost: \$129**

**Digital Crime Scene Photography** presents the critical knowledge and skills needed to capture fair and accurate photographic documentation of any scene. This 6-hour course covers digital camera basics, lighting strategies, and methods to capture images of impression evidence and bloodstains. Learn to 'paint with light,' capture a drop of water in motion, and prepare for courtroom testimony.  
**Cost: \$79**

“Please know that these trainings are essential to all law enforcement. I am a Boston Police Officer in the Crime Scene Unit and I was able to apply what I learned at NFSTC down on Boylston Street during the Marathon bombing which occurred on April 15, 2013.”

**Police Officer Michael Connolly**, Boston Police Department Crime Scene Response Unit
